REV. FATHER FELIX WRITES OPEN LETTER

REPLIES TO ACCUSATIONS MADE BY REV. R. E. SNODGRASS.

CHURCH NOT IN POLITICS

"Slander and Insult and Unproven Statement Seems to Be His (Snodgrass) Only Stock in Trade."

The Democrat-Forum today received the following:

Open Letter.

To Whom It May Concern:

The undersigned was privileged to address the members of the Chamber of Commerce at their luncheon a little over a week ago. In the course of the evening, he made the following remarks:

"The Catholic Church is not in politics. Our people are Democrats or Republicans at their own option. We do not seek to shape their political views. You could have attended St. Mary's or St. Patrick's church in this city every Sunday for the last twenty-five years and you never would have heard politics so much as mentioned. Much less do we denounce any of the political candidates from our pulpits. That, we are taught, is unchristian."

Evidently the shoe fitted someone, and forthwith he launches into a long winded tirade against the Catholic Church. Slander and insult and unproven statement seem to be his only stock in trade. A little more notricty his end and aim. What are we to think about it? What will the fair minded men and women of this great commonwealth think about it? Just exactly what they thought about the political harangues that this same gentleman condescended to give them anent Mr. Reed. The utter absence of politics and the spirit of Christianity pulsing through those discourses was remarkable indeed. No, Mr. Snodgrass do not mistake issues. The Catholic Church is not in the balance in this matter of politics. But the character of a man in Maryville, who calls himself a "Christian" Minister certainly is.

As far as I am concerned, this controversy is closed. The narrow accusations that this gentleman hurls at the Catholic Church are so palpably false that they call for no refutation. Either these are the ravings of a man who is mad, or they are not. If they are, it were folly for me to argue with a mad man. If they are not, then their author stands convicted as a blatant bigot. I disdain to have anything to do with him, for I have long been convinced that to lie down with dogs is to get up with fleas.

Signed, Rev. Richard Felix.

MRS. AMANDA ELLIS, FORMER RESIDENT, DIES IN ST. JOE.

Had Been a Prominent Citizen of Maryville—Burial to Be Here Thursday

Mrs. Amanda Ellis, the widow of the late Albert T. Ellis, one of the prominent citizens of Maryville in an early day, died at 8 o'clock last night at the home of her sister, Mrs. Margaret Wooldridge in St. Joseph. The body will be brought to Maryville for burial arriving here Thursday noon from St. Joseph. The funeral party will go directly from the train to Oak Hill cemetery where interment will be by the side of Mr. Ellis, who died in 1892. The Price Furniture Company, which will have charge of the funeral arrangements, will provide the necessary conveyances to take friends from the station to the cemetery.

Mrs. Ellis was a charter member of the First Christian Church of Maryville, and was a member of one of the old, long established families, prominent in the early history of Nodaway county. She was a native of Iowa and her maiden name was Miss Amanda Allen. Her marriage to Mr. Ellis took place December 22, 1865. The brick residence of Ed Forsyth at 105 North Main street was built by Mr. and Mrs. Ellis and occupied by them for a number of years. The family moved to Kansas City in 1902 where Mrs. Ellis had resided until a year ago when she went to St. Joseph to live with her sister. She is survived by one son, Albert T. Ellis of Denver, Colo., who will accompany the body here Thursday. Mrs. Anna Wehrman of St. Joseph is a niece.

ELECTION RETURNS TONIGHT.

Election returns will be received this evening by the Democrat-Forum and the Tribune at the courthouse. Returns from the county will be received from a special representative in each precinct. On account of the new ballot, the returns may be slow in coming in.

State returns as well as returns from other states will be given at intervals of fifteen minutes from 7 o'clock on until morning.

You are invited to come to the courthouse this evening to hear the returns.

THANKSGIVING SERVICES WED., NOV. 29

DECIDED LAST NIGHT BY MINISTERIAL ASSOCIATION

PRESBYTERIAN CHURCH

Special Music and Outside Speaker for the Service—Offering to Welfare Board

Union Thanksgiving services will be held by the churches of Maryville, 7:30 o'clock Wednesday evening, November 29, at the Presbyterian Church.

This was decided last night at the meeting of the Maryville Ministerial Alliance which was held in the study of the Rev. B. F. Cline, secretary of the organization. Rev. Cline will endeavor to secure some outstanding out-of-town speaker to give the principal address of the evening.

Luther A. Richman, director of the Presbyterian choir, is now working on special music for the services.

The free will offering to be taken will be given to the city welfare board.

In setting the date for these services the ministers decided it would be better to have it the evening before Thanksgiving in order to give the spirit of Thanksgiving a better start for the following day. It was also taken into consideration that a great many people are out of town Thanksgiving day.

DEMOLAYS PRAISED AFTER INSTALLING NEW CHAPTER

Class of 26 Taken In at Albany Last Night—Drill Patrol Excells

A chapter of De Molay, consisting of twenty-six charter members, was instituted at Albany last night by the Maryville Chapter, Order of De Molay. More than thirty De Molays and Masons from Maryville made the trip to Albany in automobiles yesterday afternoon.

A fifteen minute drill by the drill patrol, captained by H. D. Snyder was held at 6 o'clock. The drill was good and even exceeded the exhibition of the Maryville boys at the De Molay state conclave at St. Louis last summer.

Following the drill the Maryville boys were taken to the New Albany hotel and the leading restaurant, where a supper was provided by the Albany boys.

The degree work started at 8 o'clock. The initiatory degree was conferred and following this the De Molay degree was given.

After the degree work several short talks were made. In each of these the Maryville boys were complimented highly on the calibre of their work. When called upon for a talk M. A. Peery, "Dad" of the Maryville De Molays said that he was proud of his boys and their work but that it could easily be duplicated by the newly organized Albany chapter.

Following the conferring of the degrees some of the local De Molay started for home while four car loads remained for an informal dance which was being held.

The roads to Albany were rough and the trip required several hours. On the return trip the cars were running in funeral line when the car of the Geist Tin Shop with all the equipment and paraphenalia blew out a tire. Quite a while was required to repair the tube and casing and consequently the boys who stayed for the dance caught the rest of the cars a few miles this side of Albany.

Exports of corn from the United States during the calendar year 1922 promise to exceed those of any year since 1900, when the exports reached 190,386,489 bushels, according to the United States Department of Agriculture.

MISSION SCHOOL WILL START WED.

CONDUCTED BY THE PRESBYTERIAN CHURCH

IS A NEW PROJECT HERE

Pastor Says Plan is to Develop Evening Into Educational and Inspirational Factor

On Wednesday evening the Presbyterian Church is to begin a new project in missionary education. It will be known as 'The School of Missions' This fall the study will be on the foreign mission topic, "India," on five Wednesday evenings.

It is planned to develop the Wednesday evening session into a big educational and inspirational factor in the life of the church, says the pastor, Rev. S. P. Allison. This project of A School of Missions, though new to Maryville, he says, has been tried out for several years and is now considered the most successful and efficient method of missionary education yet developed. The holding of such schools has spread rapidly throughout the denomination, now numbering into the thousands.

The school is organized for a group for each age group of the church. The men of the Brotherhood and the ladies of the Missionary Society will form one group, which will study "Building with India" under the leadership of the pastor. The Westminster Guild will study "Lighted to Lighten" led by Miss Jessie Parcher. This books deals especially with the work for the women of India. "India on the March" is the young people's book, and this group will include High School and College folks. Miss Mary MacLeod will be the leader. Miss Helen Manifold of Tarkio will lead the older junior and intermediate group in the study of "The Wonderland of India."

The primary and younger junior children will be reached through the Sunday School organization. For them there is a book "A Child's Garden of India", and series of pictures of India. Thus, the School of Missions will reach every age group of the congregation, says Mr. Allison.

The program for the evenings will be song and devotional service from 7:30 to 7:40. At 7:45 group discussion, and at 8:30 adjournment, without reassembling. The discussion method will be used as far as possible. At 8:30 there will be choir rehearsal, officers meetings, etc., making Wednesday a real Church night is the church, on which as many activities as possible will be consoldiated.

The books are already here and many have already been sold, and are being studied in preparation for Wednesday. Some maps and other supplies are also here. More books and other maps will be secured as needed. The crowd of over a hundred that heard Dr. Cleveland speak last Wednesday at the basket dinner, when the project was first presented to the congregation, after being worked out by the officers were much interested in the scheme.

If this plan proves successful, it is planned to hold other terms of study. After New Years would come a Home Mission term. Other terms might be for study of special subjects in the fundamentals of Christianity, and Bible study.

FOUR SPEAKERS TALKED AT C. OF C. LAST NIGHT

Good Roads, County Unit, Constitutional Convention and Near East Relief Discussed

A good crowd attended the Chamber of Commerce luncheon held last night at the Bainum hotel. During the meal a radio concert was given by Ellis Meek and Arthur Garrett of the Radio Supply Company.

Talks were made by G. W. Walrod, state project engineer, President Uel W. Lamkin of the College, M. E. Ford and the Rev. H. C. Garrett. Mr. Walrod spoke on Amendment No. 3 for the maintainence of roads which is being voted upon today. Mr. Lamkin explained the County Unit Bill, Proposition No. 12 on the ballot today, its purpose and application. M. E. Ford, who has been a delegate to the constitutional convention at Jefferson City spoke briefly of the work of the convention. The Rev. H. C. Garrett, a former resident of Nodaway County spoke of the work of the Near East Relief with which he is now connected.

PUBLIC HEALTH CLINIC TO BE HELD THURSDAY

Ten Children Will Undergo Operation At Hospital to Remove Tonsils And Adenoids

The fourth public health clinic conducted by the Nodaway County Health Department will be held next Thursday Nov. 9 at the St. Francis Hospital. At this time about ten children will undergo an operation for the removal of tonsils and adenoids. These children will go to the hospital tomorrow afternoon for the agglutination examinations.

It is the plan of the department to conduct two more clinics, one for next week and one for the following. The names of the thirty-two children are on the list for the next two clinics.

Those in charge of these clinics have asked that the parents of these children get in touch with them as soon as possible so final arrangements can be made.

REPORTS SAY REED WILL CARRY K. C. BY 22,000

At 10 A. M. Dope Said 50 to 1 for Reed Betting 3 to 1 in St. Louis

Kansas City, Nov. 7—Reports from a number of the polling places at 10 o'clock this morning state that Senator James A. Reed is running 50 to 1 over R. R. Brewster in the race for United States Senator among the early voters.

Republican leaders claim that the women vote which had not been voted to any extent this morning will put Brewster in the lead.

Democratic leaders predict that Senator Reed will carry Kansas City by 22,000 votes.

Both party leaders predicted the heaviest vote ever cast in Jackson County.

St. Louis, Nov. 7—Generally fair indications today point to the prediction that 900,000 votes will be cast in the state in today's election. The senatorial race between Senator James A. Reed and R. R. Brewster is claimed to be responsible for the heavy vote prediction.

Betting was light here, but wagers were being made 3 to 1 that Reed would be re-elected.

HERRIN MASSACRE TRIAL WILL OPEN TOMORROW

424 Indictments Have Been Returned by Grand Jury—Trial Expected to Last Weeks.

Marion, Ill., Nov. 7.—The indicted men in the famous Herrin massacre will go on trial tomorrow.

The eight men that are in jail will be tried first. 424 indictments were returned by the grand jury. These indictments include forty-four for murder, 116 for conspiracy to murder, fifty-eight for rioting and 103 for assault to murder.

The trial is expected to take up weeks. The petit jury has been summoned to meet at 9 o'clock tomorrow morning and one hundred veniremen have been subpoenaed to fill any vacancies that may occur.

The selection of the jury is expected to take at least several days. Both sides are represented by the strongest legal talent. Attorney-General Brundage is directing the prosecution.

The Herrin massacre occurred June 22, when twenty-one miners lost their lives during the coal strike.

AN ARMISTICE DAY PROGRAM AT COLLEGE TOMORROW

A program in observance of Armistice Day will be given at the weekly assembly tomorrow at the State Teachers College. The program, which will begin at 10 o'clock, will open with music, "The Star Spangled Banner." The regular announcements will be made after which a tableaux, "The Spirit of America," will be presented. The remainder of the program will include the song, "Nearer My God to Thee;" a short prayer by Dr. Fred Keller, and a talk by the Rev. J. A. Cooper of the First Baptist Church who will have a subject appropriate to the occasion. The various patriotic organizations as well as anyone who is interested is invited to the program.

Purchase Busby Property

Mr. and Mrs. Leonard F. Bosch of Maryville have bought the residence property at 311 North Vine street which is occupied by Mr. and Mrs. E. G. Orear. The place was owned by Clyde Busby, a former principal of the Maryville High school. Mr. and Mrs. Bosch will get possession of their new home about December 1.

VOTING TODAY IN 36 STATES

34 SENATORS AND 431 REPRESENTATIVES TO BE ELECTED

BOOZE TEST IN 4 STATES

Ohio and Illinois Voting on Volstead Modification, California and Massachusetts on Enforcement

Chicago, Nov. 7—An unprecedented vote for an "off year" will be cast today when the nation chooses the members of the 68th congress which will convene in December, 1923, unless earlier summoned by the President.

In thirty-three states, thirty-four senators will be elected. Of this number, thirty-one will be elected to regular 6-year terms, beginning March 4, and three to fill vacancies. One senator, Frederick Hale, Republican, was re-elected to a regular 6-year term in the Maine election, September 11.

In 431 congressional districts in the whole country, representatives will be elected, the other four members of the house, all Republican, having been elected in Main.

While the voters have been reported apathetic in many parts of the country, it is not doubted that the total number of ballots cast in the election will break all records except those of presidential elections.

It is not expected that anywhere near the 27 million persons who voted in 1920 will go to the polls but the 1918 record doubtless will be outdone. Women voted in all states for the first time in 1920 and this is the first "off year" election in which their influence will be directly exerted.

The contest will be confined to thirty-six states.

In the senate, there now are sixty republicans and thirty-six Democrats; in the house, 302 Republicans and 133 Democrats.

In Ohio beer and light wines will be legalized in that state in case the majority of the electorate today favors a proposal to amend the state constitution to allow the manufacture and sale of beverages of 2¾ per cent alcoholic content. Under the proposal, however, the saloon would remain as it has been theoretically since the advent of prohibition.

Ohio, every year since prohibition was adopted, has had a referendum.

Senator Atlee Pomerene, Democrat, is seeking re-election over Simeon D. Fess, Republican.

Massachusetts, California and Illinois are also voting today on a referendum concerning modification of the Volstead act to permit light wines and beers.

The fight in Massachusetts has attracted widespread interest because the veteran senator, Henry Cabot Lodge, Republican leader in the senate, is a candidate for re-election. His Democratic opponent is William A. Gaston, a Boston banker.

The contest in New Jersey, where Senator Joseph S. Frelinghuysen is a candidate for re-election against Governor Edward I. Edwards, has been enlivened because of the wet-and-dry issue, the governor favoring the wets.

Senator William M. Calder of New York has been through a spirited campaign with Royal S. Copeland, health commissioner of New York, with the tariff as the leading issue.

In Connecticut, George P. McLean, Republican, has engaged in a strenuous tilt for re-election with Thomas J. Spellacy, and in Rhode Island, Senator P. G. Gerry, Democrat, is a candidate against ex-Governor R. Livingston Beeckman.

The seat of Senator Joseph I. France, Republican, of Maryland has been sought by William C. Bruce in a vigorous campaign.

Pennsylvania will elect two senators, the Republican incumbents, George Wharton Pepper and David A. Reed being candidates for re-election. Pepper is filling the unexpired term of the late Boies Penrose and Reed is filling the unexpired term of the late William E. Crow.

Two gubernatorial campaigns—in New York and Pennsylvania—have attracted national interest. In New York, Governor Nathan Miller, Republican, is a candidate for re-election, his opponent being ex-Governor Alfred E. Smith. This campaign has almost eclipsed all other contests in the point of popular interest in the state.

In Pennsylvania, Gifford Pinchot, who focused attention by wrestling the Republican nomination from the regular organization, is opposed by John A. McSparran, active in the grange.

BRITISH COUNCIL TAKING UP TURK PROBLEM TODAY

"Situation Is More Serious Than Any Other Time," Leaders Declare.

London, Nov. 7. — The ministerial Council today took up the Near East situation and leaders declare it to be, "far more critical than at any other time."

Developments the last few days are such that may precipitate hostilities any time. British soldiers have been attacked in Constantinople and four are reported dead in the fighting near Chanick. The British land and naval forces are being kept within the three mile limit by Turkish forces.

The British commander in Constantinople has advised Kemal that he has no authority to answer his demands and he must refer them to London.

MANY ARE VOTING THIS AFTERNOON

1,916 VOTES CAST AT 2:30 O'CLOCK WITH POLLS CROWDED

BREWSTER IS IN LEAD

Indications Pointed To Election of Mrs. Mamie E. Clardy, Judge Robertson and Virgil Rathbun

At 2:30 o'clock this afternoon 1,916 votes had been cast in Maryville and Polk township. The voting was lively here during the afternoon and it was expected the total vote would reach close to 3,000 at closing time. Two years ago at the presidential election Polk township and Maryville had a total of 3,613 votes.

Indications this afternoon from the four wards in Maryville and also from a few precincts over the county pointed to the election of Mrs. Mamie E. Clardy for recorder over Dan R. Eversole, the election of Judge Jesse F. Robertson for probate judge over G. B. Roseberry and the election of Virgil Rathbun for circuit clerk over Otto Monk. Indications were also favorable to Fred W. Smith for re-election as county clerk over Mrs. Cora Bell Clary, and for the election of Dr. O. L. Curl for prosecuting attorney over William G. Sawyers. Judge E. T. Bailey for presiding judge of the county court was leading Henry Heitman.

That Brewster will carry Nodaway County was shown by reports received from the wards here and from a few precincts over the county. Brewster is running ahead in Maryville, Reed being scratched by many Democrats and women. Will E. Spratt for congress is running away ahead of Reed. Reed and Spratt are carrying Jefferson township by a two to one lead, with Fred Smith for county clerk and William G. Sawyers for prosecuting attorney being in the lead.

It was thought this afternoon the returns would be late in coming in, on account of the fact of so many scratches, and of the new blanket ballot being used for the first time.

With the weather man ultra-thoughtful in apportioning a made-to-order November day, the general election opened this morning in grand style. Political leaders here and through the state have predicted an unusually heavy vote in today's election.

The polls opened this morning at 6 o'clock and those in Maryville have been doing a rushing business ever since. The votes cast at 9 o'clock this morning is an indication of the early voting. At this time the votes cast were: first ward, 114; second ward, 111; third ward, 145; fourth ward, 158. At this time every booth in the four polling places were full and voters were waiting to mark their ballots.

If the "early birds get the worm," the choice of the following voters should be elected for they were the first to cast their ballots this morning.

First ward, John Sewell; second ward, Charles Hyslop; third ward, Harvey Haines, fourth ward, E. A. Kendall.

MAIL BOXES REQUIRED.

The postoffice department desires again to call to the attention of residents in Maryville that mail receptacles or door slots are necessary for expeditious delivery of mail by carrier and announces that unless such boxes or slots are provided within a reasonable time, delivery of mail will be discontinued.

75 BODIES ARE TAKEN FROM MINE

SAYS BULLETIN AT 2:45 THIS AFTERNOON.

MANY NOT IDENTIFIED

Impromptu Slabs of Boards Made for Bodies—Salvation Army on the Job.

Spangler, Penn., Nov. 7.—The bodies of sixteen more have been found this afternoon, making the total known dead from the Riley mine disaster seventy-five. Six of these latest bodies have been identified.

Rescue workers said at 2:45 o'clock this afternoon that all parts of the mine had been pretty thoroughly explored and they did not expect to find any more bodies.

Spangler, Penn., Nov. 7—A revised check-up at 10:45 this morning showed that fifty-one bodies had been recovered from mine No. 1, thirty-one injured in the hospital and fifty yet unaccounted for in the mine. On the face of this check up it appears that there were 132 men in the mine.

The Riley Coal Company officials refuse to give out any statements as to the number involved and are spending their efforts in looking after the living and searching for the dead.

All parts of the mine are said to have been explored by noon today.

Spangler, Penn., Nov. 7—Thirty-two miners have been rescued alive and the bodies of forty-nine miners had been taken from the Riley mine at 8 o'clock this morning.

The number of dead has been fixed at eighty in what is said to be the most serious bituminous mine disaster in central Pennsylvania in the past decade.

Some of the men are in a critical condition and several may not live. The bodies have been taken to the miners' hall and the living to the hospital. Thirty-eight have been identified by friends and relatives, but eleven remain unidentified.

A force of Salvation Army workers arrived on the scene this morning and began work aiding the rescue squad.

At 8:30 this morning the pumps had started to work where more than a score of the bodies had been found, but they were handicapped in their work by the presence of water.

Grusome work is in progress at the temporary morgue. Thirty-seven bodies had been embalmed at 7:30 this morning. Many of the bodies were badly scorched and scarred by the flames. A force of state police are keeping the crowd of curious away from the morgue.

Impromptu slabs made of two boards nailed together are being used and the bodies are being brought in and placed upon these rough slabs. The Salvation Army lassies are helping to wash the bodies as they are brought to this temporary morgue.

COMMISSIONS EXTENDS LIGHT CO.'S RATE FOR GRANT CITY.

The public service commission yesterday granted permission to the Maryville Electric Light and Power Company to extend its rates in Grant City to January 1, 1923. This was done, the commission said, after an investigation showed that increased rates granted the company more than a year ago have not brought more than a reasonable return on the capital invested in the plant.

C. C. Hellmers said this morning that these would be effective only until the transmission line from Maryville could be completed and Grant City could get their "juice" from the Maryville plant.

For a Hopkins Pig Club

County farm agent, Roy A. Kinnaird is in Hopkins this afternoon conferring with the directors of the Hopkins School Fair in regard to organizing a pig club to be included in the fair activities for next year.

Miss Garnett Pike and Miss Mildred Ledgerwood returned Sunday evening from Whitesville where they had been visiting at the home of Mr. and Mrs. P. T. Anderson. They were accompanied to Maryville by Harley Anderson and Lloyd Law of Whitesville.

WEATHER FORECAST

Fair tonight and Wednesday; not much change in temperature.

THE DEMOCRAT-FORUM

Member of Audit Bureau of Circulations.

LARGEST CIRCULATION IN NODAWAY COUNTY

PERMANENTLY GREAT PREACHERS.

Many young men who are studying for the ministry may well ask themselves what were the causes for the great fame and influence of Rev. Dr. Lyman Abbott, who passed on a few days ago. They could hardly find the reason for his power in eloquence of speech, as many relatively obscure men have surpassed him in word painting and in graces and style.

But the flowers of rhetoric wither and people get tired of mere phrase mongers. Probably the quality that goes the farthest in helping a clergyman win attention, is the power to present a clear and reasonable interpretation of the problems of life.

Dr. Abbott and others like him have commanded influence because they seemed to offer rational solutions of life's difficulties, and create a basis on which one could have a confident faith in a higher and divine power. This is the kind of enlightenment for which the modern man looks to the Christian ministry.

What will the women do in Heaven if the wings are alike?

Ine one more day the county will know Who's Who in politics.

Girls who had their hair bobbed without thinking will have to use their heads to make it long again.

Fear and imagination make a dangerous combination. Many people with only imaginary ills worry themselves sick. Alfred Durieu, a Frenchman of 31 conceived the idea that he had cancer of the stomach. His fear became an obsession and he began a rigid dieting in order to relieve it. In due time he died and an autopsy revealed the fact that he had no cancer and had died of starvation.

Communication

To the Democrat-Forum:

The vital issues of the hour, that can only be settled by the franchise of the patriotic voters of this great republic are of the utmost importance to each individual citizen and to the generation that must follow. The principles of the Democratic party are best suited for a republic. The birth of democracy has given individual freedom not only to us, but to the world, for one by one the monarchies of the ages have tottered and fallen. Their selfish domineering and autocratic rule becomes a stench in the nostrils of subjugated people and the spirit of man is fast bursting the fetters of oppression. The birds of the air have their freedom, and why should man be a slave and a prisoner? The wonderful achievements of the Democratic party since its birth have commended its principles to all liberty loving people. This great party has enacted laws to act as a governor over capital against labor and has ever fostered the interests of the weak against the strong. It has shown superlative administrative, executive and financial ability during the stupendous upheaval of the world war. Its peerless leader at that time was a man among men, his mental power had few peers, his statesmanship excelled in moral force and held spellbound an admiring world. His unselfish martyrdom for his people and all people will shine forth in history like a beacon light to illumine the vista of oncoming generations. The ingratitude and calumny of reactionary partisans will always be a blot upon the execution of civilized history. Their vindictive jealousy was like a virus from the forked tongue of a recoiling serpent, notwithstanding he was the greatest emancipator of monarchism known in the annals of history. His conception of world freedom was civilized, christianized and Eutopian.

The people of this great republic have been and are being misled and misinformed as to the existing facts and conditions in the political arena. Trained politicians, but not statesmen have by trickery and subterfuge deluded the people and fed them on chaff devoid of facts. The Republican party led by the senatorial oligarchy, backed by the untold wealth of capital and Wall Street have thrown a barage of delusion and mist before the eyes of the voter. They are resorting to every scheme and subterfuge and have no regard for truth, figures and facts. They have promised capital unfair protection and privileges ignoring labor and the producer. Hence capital's allegiance and alliance. The long continued and unwarranted toboggan slide of farm products to a point below cost of production is beyond a doubt caused by the manipulation of the board of trade and the interests who pile up untold millions when they can get a high Republican tariff as a bulwark of protection against the fair world competition.

The prearranged and intentional shortage of railroad transportation together with the artificial price fixing of all farm products by the speculative interest of the stock exchange and the artificial tightening of the money market can in a few days time play havoc with the farmer, who is the prince of all producers and the primary source of all wealth. He should have a say as to the value of his products based on the cost of production, but alas he is not consulted. They simply say your hogs, your cattle, corn and wheat are worth so much. Take it or let it alone. They rob the farmer like a bee keeper robs a hive of honey. Then he has a failure or shortage in crops, they boost the price and offer him a big price for something he has not in stock. When they know he has abundance they say "Liverpool is overstocked or Argentina has a tremendous surplus or offer some flimsy excuse like ice money at the north pole is melting, or monkeys in South America have gone into agriculture and their activities depresses the grain market in the United States. Right now the high tariff protected manufacturers and wholesale robbers are telling the retail merchants, you better buy this and that in large quantities, there will be a thirty to forty per cent raise as soon as the McCumber tariff law goes into effect.

Such legislation encourages and fosters profiteering and robbery against the farmer and laborer, who has no recourse except to buy or starve. The farmer has no way to inflate the price of his products to meet the thirty or forty per cent raise against him, which is caused by the robber law which is the offspring and child of high tariff legislation. The natural laws of barter and trade are based upon the theory of reciprocity. If by excessive high tariff we shut out surplus of other countries in world they in turn black ball and bar our surplus. This is the natural sequence. Protection is a boon to the manufacturer and enables them by such protection to put their "crooked wrist" in the pocket of the consumer.

Every farmer needs and wants a world market for his surplus. The ships of commerce should be busy exporting our corn, wheat and cotton and bringing back coffee, tea and spices and all commodities we need. The farmer and laborer must organize for protection against unjust and descriminating legislation. No laws should be allowed to stand that protects and fosters the interest of "Big Business." If it is possible to give the Standard Oil Company competition by opening the world market so that the consumer can get his gas and oil cheaper it should be done. A concern that can declare a two hundred per cent dividend has too much protection. Again the farmer and laborer must elect men who will stop this ever-growing and enormous tax robbery, for history has proven that all nations who were over burdened and taxed beyond their ability, where waste and extravagance in governmental expenses demands the life blood of a nation, that nation tottere under its burden and met its Waterloo.

Another question of great importance that faces the American people of today and must sooner or later be squarely met is the Volstead Act passed as a law and written into the constitution of the United States. If the law is impracticable and unjust discriminating against the poor as against the rich it should be modified or repealed. As it stands today it fails to function and is a "joke and a farce," for it is raising a generation of law breakers and instilling disregard and willful disobediance to the laws of our country. Instead of government control and respect it means wilful disobediance. We are raising a generation of boot leggers and illicit distillers, a modification and strict government enforcement would be far better than the inoperative law as it stands today. In social life if parents of a family of children lay down a law to their off spring, that is made for their good to guard them from evil and the children ignore their command and willfully do what they are told not to do, the result will be in all probability, they will raise the boys and girls with criminal inclination, individuals who owe allegiance to know no governing power so it is with a nation if impracticale and inoperative laws are enacted and put in to the statutes and constitution and not enforced it weakens the moral fibers of that nation and injects a character element that will prove disastrous. Either enforce the law to the letter or if too puritanical and radical modify it so that it will function, if neither of these courses are desirable strike it from the statutes, but do not allow the masses of a nation to willfully ignore and break the laws and edicts of their country.

Nearly every one has heard the expression of Big Business' "cutting a mellon." In state and national affairs the same thing is done. We have examples of illegal cutting of huge mellons during the war and quite often in time of peace. The difference is "Big Business" has the right to cut the mellon, while in state and national government the mellon is stolen from the people. We elect to office professional politicians instead of business men of integrity and statesmen. These professionals are trusted with the people's money, which should be a sacred trust carried out with more honor and principle than if they were spending their own money. But how often graft and misappropriation enters the scene. And honor is forgotten and elected professionals appoint "Birds of a Feather" and they proceed to cut the big mellon the common people and farmer whose money it is, don't even get a chance to suck the juice out of the rind and often the professionals forget to save the seed for the producer. During the war this government was swindled out of millions of the people's money that was intrusted to the professionals who had "Crooked Wrists." The professional awarded contracts amounting to millions of the people's money, giving the contractors thousands that he did not and could not earn and in many cases there was a large sums of money derived from "hand back" to the professional. Our state governments are subject to the same disease, in the hands of these professionals. We in Missouri are spending $60,000,000.07 of the people's money on roads. The question is, are you sure it is being handled with "wisdom?" Is it free from graft and political intrigue? In some parts of the states they are shipping at enormous freight rates, sand and material for concrete works that could be gotten locally for ½ what it is costing them. This makes favoritism and looks as if somewhere these dispensaries of the people's money had some special pets, who are bound to get a big slice of this huge financial mellon. Again are the rural districts getting their share of this road mileage or have the big cities got the pull. The conclusion it that the voter of to-day should awaken from his lethargy and see to it that one hundred per cent business men and farmers with honor, principle and integrity are elected to all of the places of public trust, where taxes are involved.

RED CROSS
ROLL CALL
Nov. 11 to Dec. 1.

Your Winter Trip

to California will be surprisingly more enjoyable and far more satisfactory if your hotel or bungalow accommodations are arranged for well in advance and proper consideration is given to the selection of your route to take you there. Naturally, you want to see the most of the best scenery in America en route. The logical route is the Burlington (in connection with the Denver & Rio Grande Western and Western Pacific), because it takes you right through Denver, the Pike's Peak region, Royal Gorge, scenic Colorado, Salt Lake City and the Grand Canyon of the Feather River in the beautiful Sierra Nevada Range. Then, if you return by way of the great Pacific Northwest (Yellowstone or Glacier Park line), Minneapolis, St. Paul and the Burlington's Mississippi River Scenic Line, you put a ring around the Golden West—the most wonderful trip in America. Rail rates are the same via all Western lines. Therefore, you have something to gain and nothing to lose by investigating before completing your plans. Let me tell you more about the Burlington's more-travel comfort-at-the-same-cost service.

Employe Partnership a Big Factor in Efficiency

IN its issue of Oct. 1, 1922, the Chicago Tribune says, "In this field (industrial peace) there is much to be hoped for from intelligent effort to induce investment by employes in the industry or business in which they are employed. * * * * If the millions that have been lost in ill-advised strikes could have been invested in shares in the enterprise, the workers in many cases would have accomplished the benefits they sought."

The acknowledged efficiency of the Standard Oil Company (Indiana) is due in no small measure to the fact that every employe of the Company, if he will, may become a partner in the business by taking advantage of the stock-purchase-plan. To the amount of stock subscribed for by the employe, the Company gives one-half, and the employe is allowed to pay in small monthly installments. Thus he has an excellent investment which he can watch and help make more profitable.

The Standard Oil Company (Indiana) employes are insuring, through investment, the present well being and future security of their families, an end which every man is striving to accomplish. These men and women know that the Company is genuinely interested in furthering their welfare. Their energies, therefore, are released from worry over the future and are turned to increased efficiency that comes with enthusiasm.

Whole-hearted co-operation is essential to the conduct of any business. The management of the Standard Oil Company (Indiana) recognizes this fact and believes that no better way to secure this co-operation can be devised than by giving every employe an opportunity to become a partner in the business. The enthusiastic response which the employes have given to this plan proves conclusively that the Company has solved a problem of importance to the Company, the employe, and the public.

There is no idle time nor decreased efficiency due to disputes, discontent, or misunderstandings to be charged into the consumers bills. Every employe of the Standard Oil Company (Indiana) is delivering full-time and energy to the performance of his task, and this work is to him a pleasure, not a task.

It is submitted that this is another item in that cycle of service which the Standard Oil Company (Indiana) renders the public.

Society

Sillers House Party

Mr. and Mrs. George P. Sillers entertained a party of friends over the week end at their home on East Fourth street. Their guests included Mr. and Mrs. E. J. Kearby, Mr. and Mrs. H. H. Hesse and Mr. and Mrs. V. A. Mackay, all of St. Joseph.

Mrs. Bellows Hostess

Mrs. Fred D. Bellows was hostess to the Wednesday Bridge Club this afternoon at her home, West Lawn Farm. The guests of the afternoon were Mrs. Phil Smiley of Los Angeles, Cal., Miss Clara Sturm and Miss Ora Barmann.

Birthday Dinner

Mrs. Myrtle Dillon, 602 East Seventh street, entertained with a birthday dinner Sunday in honor of the twenty-second birthday of her brother, William Alpheus Clouse. Plates were laid for Mr. and Mrs. A. E. Clause, Mr. and Mrs. J. C. Clapper, Mrs. J. C. Davis and daughter, Lucile, Forrest Clouse, Eugene Dillon, Evelyn Hackett, the guest of honor and the hostess.

The Successful Club.

The Successful Club will meet at the home of Mrs. Golda Wells Thursday, Nov. 9. Members will respond to roll call by answering the question, "What personal benefit have I derived from the club?"

Queen Esther Circle

The November meeting of the Queen Esther Circle of the First Methodist Church was held last night at the home of Miss Arvilla Campbell on South Walnut street. The devotions were led by Miss Inez Moore and the study on "The Negro" was in charge of Misses Treva Phipps, Laveta Epperson and Nadine Neal. A special musical number was given by Miss Ruth Houchens who played a piano solo. Misses Treva Phipps and Arvilla Campbell were appointed members of the program committee for the remainder of the year. It was decided to give a Queen Esther program Sunday evening, November 19, at the church. The members will have complete charge of the evening service which will include a pageant. A Thanksgiving box will be packed for some needy family in Maryville, it was also decided. Refreshments were served by the hostess, assisted by Miss Nadine Neal at the close of the program. Those present were Mrs. Blaine Archer, sponsor, Misses Alma Appleby, Vira Fitz, Laveta Epperson, Treva Phipps, Hazel Pugh, Ruth Houchens, Dorothy Dow, Fern Murray, Hope Moore, Inez Moore, Dorothea Snoderly, Nadine Neal and the hostess.

For Mrs. Gann.

Mrs. J. F. Colby entertained with an informal Kensington this afternoon at her home in honor of Mrs. Lamont Gann of Pueblo, Colo. Additional guests included Mrs. S. G. Gillam, Mrs. George B. Baker, Mrs. E. F. Wolfert and Mrs. G. E. Alexander of Medicine Lodge, Kan. Mrs. Gann will be a dinner and over night guest of Mr. and Mrs. Colby tonight.

Picnic Supper for Pastors.

Members of the First Methodist Church will give a picnic supper at 6:30 o'clock tomorrow evening in the basement of the church in honor of the new pastor, Dr. C. C. James and Mrs. James, and the retiring pastor, Dr. O. L. Curl, and Mrs. Curl. Each family is expected to bring their own basket supper. A program consisting of talks, vocal and instrumental music will be given following the supper.

Daniels-Steele.

Mrs. Ethel Daniles of St. Joseph and C. B. Steele of Fairbury, Nebr., were married Saturday evening at 8 o'clock at the Baptist Church. Mr. Steele is employed at the Hartman furniture store in St. Joseph, where the couple will make their home.

James Hobart Neff

Mr. and Mrs. T. M. C. Neff have received word of the birth of a son in the home of their son and daughter-in-law, the Rev. and Mrs. Homer A. Neff of St. Marys, Ohio. The baby was born Saturday, November 4, and has been given the name, James Hobart.

University Prepares Budget.

Columbia, Mo., Nov. 7.—"The time has come when the oldest University west of the Mississippi river and one of the oldest in America—the University of Missouri—must receive the financial support necessary to uphold her high standards and keep her pace with the newer schools of the west in order that Missouri's University can provide for the growing number of young Missourian's who are year after year knocking at her doors."

With this in mind, the Board of Curators of the University established a precedent this week in the preparation and the announcement of the budget for the biennial period 1923-1924 which the legislature will be asked to appropriate when it meets next January. The budget totals $4,942,248.04 for the University at Columbia and $614,000.00 for the School of Mines at Rolla.

Of the amount asked, approximately one-half is for the completion of buildings, the equipment of building and for the building of much needed structures to care for the increased enrollment. For maintenance $1,950,000.00 is asked for the two year period. It is this fund which provides the payment of salaries for the teaching and administrative forces, wages of janitors and workmen, coal, gas, water and light, freight, express, postage and similar items.

With the enrollment in 1921 over 6,000 and the total for 1922 running close to the 7,000 mark increases in the teaching personnel have been forced and this increase has prevented the availability of funds for any increase in salaries. The result is that men of lesser scholastic standing in Universities on all sides of Missouri are getting higher salaries than are paid here while every year sees good men drawn away from Missouri to accept more lucrative places on the faculties of other schools, some of these schools of lesser standing than Missouri in the Association of American Universities.

The growing interest of alumni of the people of the state in the University has been manifested in a substantial way by recent gifts to the University. These gifts have been the stimulus behind some of the requests being made by the board of curators.

LARGE CROWD ATTENDS "MRS. TUBBS OF SHANTYTOWN

"Mrs. Tubbs of Shantytown," the comedy-drama in three acts which eleven members of St. Mary's Dramatic Club presented last night at St. Mary's Parish Hall, was largely attended. A number of specialties were given between acts and music was furnished by Schumachers orchestra and Miss Hilda Lahr, pianist. The proceeds amounted to $66.50.

HARDING CALLS SPECIAL CONGRESS SESSION, NOV. 20

Washington, D. C., Nov. 7—President Harding decided to call a special sesison of the sixty-seventh congress on November 20, it was officially announced at the White House this afternoon.

22 YEARS AGO.

The merchant "threw in" a pair of suspenders with every suit.

Nobody listened in on the telephone.

There were no electric meters.

Nobody observed a sane Fourth.

Straw stacks were burned instead of baled.

Publishing a newspaper was not a business, it was a dueling game.

There were no Bolshevists nor "isms."

The safety razor had not introduced the clean shaven face.

"Equipped with gas" was a prominent line in flat-to-let advertisements.

Office folks didn't know about a fan in the summer time, and ice water was a treat.

Many folks retired at 9 p. m. and rose at 5 in the morning.

(Times have changed.)

U. S. Tractors Popular

Moscow, Nov. 7.—American tractors are gaining great popularity in Russia, according to Harold Ware, a Pennsylvania farmer who has operated a tractor unit in Perm during the Summer months. Peasants are organizing groups to purchase tractors, according to Ware

Roland Wray of the Cummins-Wray Furniture Company returned last night from a business trip to Kansas City.

ITALIAN MEN HAVE FINE MANNERS SAYS U. S. GIRL

Kansas City, Mo., Nov. 7.—Imagine an American "cakeeater" kissing the hand of Miss Flapper's mamma.

Or—

Imagine the young man bowing first to mother when asking a girl to dance.

Well, that's what they do in Italy, according to Miss Margaret Reilly, of Kansas City, with her mother, Mrs. Matthew Reilly, who has just returned form five-months' tour of eleven European countries.

Miss Reilly was tremendously impressed with the manners of the young men of Italy. She said:

"Of course, I don't think the Italian men or boys—or any of the European men— are equal to ours, but the men of Italy certainly have wonderful manners.

"The young Italian men show so much respect to the mothers of the girls they ask to dance. They always rise and bow in the presence of older women.

"They also show deference to the older men.

"I think the continental custom of men tipping their hats to each other is a very fine form of courtesy.

"The European man, however lacks many things the American possesses and after all the American really is the best type."

MISSOURI LEADS ALL STATES IN COMBATING TUBERCULOSIS.

Reports to the United States Department of Agriculture on tuberculosis eradication in the various States contain some interesting facts on the progress of the work. For example, it has been found that Missouri leads in testing on the cooperative plan, with a total of 18,967 herds, containing 197,979 cattle, tested during the last fiscal year.

A Federal veterinarian located in Iowa found more reactors during the year than any other cooperative veterinarian. He tested 7,747 cattle and found 1,068 diseased animals.

The record for the largest number of cattle tested goes to an employee of the State of Missouri, who tested 14,512 cattle in 1,366 herds. Second on this list was a veterinarian hired by Shelby County, Iowa, who tested 722 herds, containing 12,120 animals.

A veterinarian of the Bureau of Animal Industry in 8 months and 20 days tested 11,828 cattle in 983 herds. This is a monthly average of 1,364 animals tested. The record is remarkable when it is known that the cost was only 18 cents a head. The cost per head for the animals tested by the entire force in Missouri was 28 cents. Area work has been done at a low cost as 15 cents a head.

Between having bridge playing mothers and golf playing fathers a lot of children have had to raise themselves.

Claude Johnson's sister, Miss Mattie Johnson of Walnut, Kansas who has been a guest at the home of Mr. and Mrs. Johnson for the past week, left for her home Monday.

Over 50,000 farm boys and girls were enrolled as pib club members in 1921, according to the United States Department of Agriculture. These young farmers reported growing nearly 60,000 purebred pigs, valued at $1,500,000, advocated by extension workers.

Joy and Thanksgiving

Joy at Thanksgiving time is not confined to the dinner table. In the time of the Pilgrims at Plymouth, where the first day was set apart as a day of Thanksgiving after the first harvest, such was the case. Today, it is thought of as a family reunion time and such is celebrated. For such an occasion, in order that you entertain your guests and friends in a fitting manner, you may consider getting a few pieces of furniture for your home.

The new selections that we are offering leave nothing to be desired—you are sure to find here, just what you want and should have, at a value-giving price, articles that will add to your joys and pleasures not only this Thanksgiving, but many more to come.

NEWEST CREATIONS IN DINING ROOM FURNITURE—Here are complete suites in all the favorite period designs.

BED ROOM SUITES—Striking in design and finish and built for enduring service.

LIVING ROOM SUITES—That appeal to the home furnisher who wants something really different.

BREAKFAST SETS — Consisting of drop leaf table and four chairs, appropriate for either breakfast room or kitchen.

DAVENPORT TABLES — A splendid selection of Davenport and Library Tables — Walnut, Fumed Oak or antique finish.

Whatever your needs in furniture, come in and look over our immense line. You will find what you want at a price you can afford to pay.

TAKE THE TARIFF OUT OF POLITICS

SAYS PRES. OF NATIONAL MANUFACTURER'S ASS'N.

TAKE VOTE OF MEMBERS

Which Resulted In Majority Favoring Final Tariff Making by "Tariff Court."

New York, November 7—Tariff-making must be removed from politics. That is the edict of the manufacturers of the country and it has the warm support of the farmers and the business men in general.

With the view to using its influence and good-will in the complete development and administration of the new Tariff Law, providing enlarged powers for the Tariff Commission and a flexible tariff by which the President of the United States may adjust discriminations in the protection of American Industry, John E. Edgerton, president of the National Association of Manufacturers, today pledged the continued interest and activities of the association toward seeing that the provisions of the preset law are carried out as a definite step toward finally removing tariff from the realm of politics. The National Association of Manufacturers has, since its creation, advocated the establishment of a tariff court that would take the making of tariff schedules out of politics. It was the first organization of its kind to sponsor this thought and has been consistently behind it ever since. In a recent referendum of its members the vote showed that eighty-nine per cent approved proposals designed to remove the making of tariff duties from political discussion by giving their final making to a "tariff court" which would be guided by the principle of protection or free trade as it might be declared by Congress.

"The chief administrative provisions of the present tariff measure," says Mr. Edgerton's statement, are:

"(1) The flexible features: Whenever the President, after investigation, ascertains that any rate of duty does not in fact equalize the cost of production between any article produced in the United States and the principal foreign competitor, he shall determine, within the limitation of fifty per cent up or down, the equalizing rate, and such rate shall become effective thirty days after his proclamation, in lieu of that stated in the law. This rate is predicated upon foreign valuation except when an increase or decrease of fifty per cent so based will not equalize the difference in cost of production; in that case, the rate of duty may be predicated upon the American selling price of the imported article, but in such event the rate may be decreased by fifty per cent but not increased at all.

"The President may not however, at any time, either transfer a dutiable article to the free list, or vice versa, or substitute an ad valorem for a specific rate, or do the opposite, nor may he in any instance go beyond the maximum ad valorem rate wherever the law and ad valorem rates shall not exceed a specified maximum ad valorem.

"(2) Unfair methods of competition: Such methods and unfair acts in the importation of merchandise are made unlawful. When found by the President to exist, after hearing and investigation by the Tariff Commission, and appeal to the Customs Court or review by the Supreme Court of the United States, the President may increase the rate of duty on such articles not less than ten per cent or more than fifty per cent ad valorem, or exclude them from entry. This includes, of course, deceptive import banding, and undervaluation of imports.

"(3) Trade-Mark Protection: The vacuum in trade-mark protection is met by preventing, under pain of forfeiture, the use upon imported merchandise of any American-owned trademark without its owner' written consent.

"(4) Retaliatory rates: Should any foreign country discriminate against articles wholly or in part the product of the United States by the direct or indirect imposition of unreasonable charges, duties, regulations, limitations or other discriminations against such articles or commerce in them the President, upon ascertaining the fact and that the practice continues, may place additional rates of duty to offset such burdens, upon the commodities imported from the offending country, not to exceed fifty per cent ad valorem, or may exclude them by proclamation. It becomes an additional duty of the Tariff Commission to continually observe and investigate such practices and bring any such discriminations to the attention of the Executive.

"(5) Increased Powers of Tariff Commission: Large increase in power of Tariff Commission to secure production of books, records and documents and to employ agents abroad and at home.

COST OF TESTING CATTLE REDUCED UNDER AREA PLAN

As a result of the area plan of tuberculosis eradication, says the United States Department of Agriculture, the cost of testing has been reduced. The pioneer counties which undertook the work naturally incurred greater expense than those which followed their lead and took advantage of their experiences. But, in spite of this, records of the department show that for the 25 counties in various States for which figures are available the cost of testing was only 34 cents a head. Steuben County, N. Y., where 45,000 cattle were tested by 33 veterinarians in 19 days, did the work at a cost of 23.5 cents a head. In Missouri the testing done by Federal veterinarians cost only 28 cents a head. This included salary, subsistence, and travel expenses. In some counties work has been done at as low a cost as 15 cents a head.

DODGE BROTHERS MOTOR CAR

The evenness of performance so often remarked in Dodge Brothers Motor Cars is due, in no small part, to the thoroughness with which each unit is inspected during the process of manufacture and assembly.

A trained staff of 800 experts is employed in this work alone, and approximately 5285 individual inspections are made on each car.

So exacting and rigid are the standards applied to these inspections that the slightest variation either in workmanship or material is instantly discovered and rejected.

Dodge Brothers are almost over-scrupulous in their constant aim to make each car as sound and perfect as is humanly possible.

The Price is $980 delivered.

GROWERS FIND GRADING PAYS, SAYS SHIPPERS' ASSOCIATION

"The advantage of standardization is no longer a theory but an accomplished fact. Our selling price was from 15 to 50 cents per bushel higher than the other houses in this district, and the greatest advantages of a standard grade and pack will, of course, be secured in coming seasons, provided we maintain our standards."

This is but one of the many letters being received by the Bureau of Agricultureal Economics, United States Department of Agriculture, from producers' and shippers' organizations which have adopted Federal grades for fruits and vegetables. The letter is from a cooperative peach shippers organization in Ohio.

"We packed out our entire crop on the United States grades," wrote the president of the organization. "All our members are well pleased and, best of all, determined to begin in their own orchards at once to try to produce fruit of higher and better quality. We see no point at which the standards recommended by your department for peaches are not throughly practical, and another year we will doubtless eliminate the old markings entirely."

Keeping the Ol' Pot A-Boiling

FORMER P. M. GENERALS STILL GET MAIL AT WASHINGTON

Washington, Nov. 7.—Although the Post Office Department does not receive mail addressed to Benjamin Franklin, the first Postmaster General, it does frequently receive missives for Postmasters-General who long since left office, according to officials.

Several letters were received by the Department recently addressed to Postmaster General Walter Q. Gresham," who headed the postal system of the United States way back in 1883 under President Arthur, and who has been dead a number of years.

An average of ten letters a day are received addressed to Will Hays, former Postmaster General. Other departmental mails come now and then to "Postmaster General Burleson," who served under President Wilson, and also to "Postmaster General Hitchcock," who was in President Taft's Cabinet.

IDAHO WOMAN NOW HAS 184 LIVING DESCENDANTS.

Homedale, Idaho, Nov. 7.—Celebrating her ninety-seventh birthday anniversary here, Mrs. Elizabeth Freeburn received congratulations from her 184 children, grandchildren, great-grandchildren, and great-great-grandchildren.

Mrs. Freeburn has ten sons and daughters, fifty-three grandchildren, 109 great-grandchildren and twelve great-great-grandchildren. The oldest of the great-great-grandchildren is twenty-six months old. Having seen the fourth generation of her family, Mrs. Freeburn is anxious to live long enough to see the fifth. And she has a good chance of having this wish materialize. For despite her active life and the many hardships which she endured as a pioneer, she is unusually well and hardy for her years. She takes a keen interest in newspapers, especially in political news.

Born in Indiana in 1825, Mrs. Freeburn had married and migrated to Illinois by 1852, this being the first journey of a series of moves westward. In 1862 she and her husband found life too tame in the rapidly developing state of Illinois and moved on to Hardin County, Iowa, where she was one of a band of pioneers who planted the first corn in that state. When Iowa settled up she emigrated to the state of Washington, and came to Homedale after the death of her husband, twenty years ago.

Hog Slaughter Records Broken

The number of hogs slaughtered under Federal meat inspection during the month of September was 2,747,467. This is 325,117 more than were slaughtered in any previous September for which records are kept, according to figures of the Bureau of Animal Industry, United States Department of Agriculture. The condition is unusual in that it is the fourth consecutive month in which the monthly slaughter record of hogs has been broken. The meat-inspection forces have, as a result thereof, been engaged in very heavy operations at a time of the year when it is usual to expect a smaller run of hogs.

Hen Becomes Rooster

Blackburn, Eng., Nov. 7.—Poultry can change their sex, according to C. P. Mason, a poultry breeder. He offers as proof the case of one of his Leghorn hens which had a record number of eggs, then moulted, developed tail feathers like a cock bird, and its egg producing organs shrank away.

LIMIT COLLEGE ENROLLMENT OR INCREASE CAPACITY

One of Two Must be Done—Dr. W. C. Bagley, Columbia University Says Expand

Chicago, Nov. 7—Are our colleges justified, on the ground of overcrowded conditions, in refusing to enroll Tom, Dick and Harry unless intelligence tests show them really capable of profiting by college work? Should we have "limitation of education" instead of education for everybody who wants it? Is America's ideal to be an 'aristocracy of brains" rather than a 'democracy of culture?"

These vital questions are being debated pro and con by college heads, professors, students and the general public. Statistics show our high school enrollment increased ten times as fast as our population. Colleges find themselves literally swamped with students. Classrooms, libraries and laboratories are overcrowded, instructors overworked, financial resources strained to the breaking-point. Either the colleges must limit the students admitted or greatly expand their facilities.

"The college executives who have been most widely quoted," declares Dr. Wm. C. Bagley of Columbia University, writing in Visual Education for November, "clearly favor the former policy. Herein they depart radically not only from the time honored precedents of American education, but from the hitherto dominant ideals of American life.

"Reaction, restriction and repression would indeed be strange slogans for a manufacturer in the face of a keen, insistent and growing demand for his product. It is hard to imagine a clergyman who would be downhearted because his church was crowded. The manufacturer would quickly borrow money to enlarge his plant, and the clergyman would persuade his congregation to build a bigger and better church."

While it is doubtless true, says Dr. Bagley, that too many students attend college, not for study and the growth that comes from study, but for good times, for athletic or social prestige, or for making friends with those who may help them later, the remedy for this evil "lies in a reform of the internal life of the college itself and not in the un-American policy of exclusion and restriction."

"This desire of multitudes of young men and women to go to college," he concludes "seems to us one of the most wholesome and hopeful things in a world that needs both health and hope. To bring more light to more men should not be an unworthy ideal for the colleges. Certainly it is not, economically speaking, an impossible ideal in a nation the inventive and industrial genius of which has brought an automobile to every third family."

Produce Review.

A larger supply of live poultry reached the New York market this week, resulting in the lowest selling prices for live poultry that have been reported for some time. On the last day of October the official quotations were: Foul, average heavy, via freight, 22c
Fowl, medium, via freight, ... 20c
Chickens, general run, via freight, 17c

Receipts of dressed poultry also were larger, resulting in lower prices and weaker tone at the close.

The butter market advanced during the week, due to lighter receipts and good consumptive demand. Prices for butterfat are generally higher throughout the producing sections.

The problem of the manufacturer is to secure better cream, as the big demand is for the top grades. Greater care of the cream and quicker marketing, not less than twice weekly during the winter, will improve the quality of butter, and will tend to increase butterfat prices.

The market on fresh eggs is closing firm with good demand for fine fresh stock. Receipts are very light, and the bulk of the trade are using storage stocks.

A better feeling is noted in connection with the market on storage eggs. Withdrawals from storage are running a little heavier than the previous week. There is still a large surplus to be marketed in order to reduce stocks to a safe basis by January 1.

The farm women of Greenwood County, S. C., are canning for a wholesale grocery company at the county seat. They are filling an order for 1,500 cases of tomatoes, 300 cases of kraut, 65 cases of beets, 300 cases of soup mixture, 275 cases of blackberries, and 300 cases of pie-peaches. They are also canning fig preserves and soup mixture for the South Carolina Home Producers' Association. This work, noted in a report to the United States Department of Agriculture, has been done according to methods taken to these rural women by extension agents.

MANY PICTURES IN THE SOAP CONTEST

BEING CONDUCTED THROUGH THE DEMOCRAT-FORUM

COLLEGE JUDGE PRIZES

Which Consist of $9 in Cash and 200 Bubbles Blowers by Ivory Soap People

Many pictures are coming in for the Ivory Soap Contest being conducted by the Proctor and Gamble Company through the advertising department of the Democrat-Forum. Many of the pictures would do credit to persons years older than the children that are sending them in.

In last Friday's Democrat-Forum there appeared a page ad on Ivory Soap showing a group of youngsters blowing soap bubbles. In this contest any child in Nodaway County may enter by taking this ad and by using their paints or crayons, color it with the best color scheme they can. After the picture is colored the contestant's name and age is to be placed upon it and sent to the "Ivory Soap Contest Editor" in care of the Democrat-Forum.

207 prizes will be awarded from this office. The first prize consists of $5 in gold and a wizard bubble blower. The second prize is $3 in cash and a wizard bubble blower and the third prize is $1 in cash and a bubble blower. The contest editor has 200 wizard bubble blowers and it is hoped that this will be enough for all the remaining children that enter the contest.

The pictures will be judged by Miss Olive De Luce and her assistants in the art department at the State Teachers College. The contest closes next Friday Nov. 10 and all of the children should see that their pictures are in the office by 6 o'clock that evening. Every grocery store in the county has the picture in its window and the children may get suggestions from them. All of the prizes will be awarded at the Democrat-Forum office after the contest.

The best pictures sent in will be exhibited in the window of the Montgomery Shoe Company.

IOWA CAMPAIGN DRAWS ATTENTION OF NATION

Split in Republican Party Is Outstanding Feature—Big Switch From 1920

Des Moines, Ia., Nov. 7—Iowans are electing a United States senator, eleven congressmen, state officers and determine whether the state shall issue bonds to the extent of $22,500,000 for the payment of a state bonus to veterans of the world war today.

The campaign, which virtually ended Saturday, has attracted national attention by reason of the spectacular nomination of the republican candidate, Smith W. Brookhart of Washington, Ia., last June, over a field of five candidates and by a subsequent hold on the senatorship by a considerable group of important Iowa republicans.

Clyde L. Herring, democratic candidate, and the Bolling republicans have accused Brookhart of radicalism and it has been upon that issue that the campaign has swung throughout. Republican managers claim Brookhart will win by 100,000 to 200,000 majority. Democratic leaders predict victory for Herring with a margin of 25,000 to 100,000. President Harding's lead over James M. Cox in Iowa two years ago was about 405,000 votes.

ITALY WILL AID ALLIES IF TURKISH WAR BREAKS

Rome, November 7 — Premier Benito Mussolini, today offered Italian military aid to the Allies in event the Turkish Nationalists precipitate another war in the Near East.

FRENCH CABINET REFUSE SUPPORT FOR WOMEN SUFFRAGE.

Paris, Nov. 7.—Women suffrage in France was doomed to death today when the cabinet refused to support the measure for women's franchise that was introduced in the parliament.

To Doctor Chickens

County Farm Agent Roy A. Kinnaird is today at the M. A. Nicholas farm south of town looking over the flock of chickens. Some of them have been sick lately and Mr. Kinnaird is looking them over to remedy the trouble.

A Skidmore Pig Club?

Superintendent J. W. Pierce of Skidmore reports much interest in the possibility of a pig club in the Skidmore district for next year to be held in conjunction with their fair. Nine schools have already reported favorable to the movement and provisions have been made for one hundred pigs.

65 ATTEND THE BARNARD CATTLE MEET LAST NIGHT

Grant Township Is Organized to Conduct Tuberculosis Tests—Township Heads Announced

Sixty-five persons attended the tuberculosis meeting which was held last night in the opera house at Barnard. Much interest was manifested in the work which was explained by Dr. T. J. Eagle of Maryville, U. S. Veterinary inspector. Parctically all townships in the district were represented at the meeting which was in charge of Dr. M. M. Pollard of Barnard. The medical profession is cooperating in the work with the veterinaries and all have given their support and time to the organization of the township.

The township was organized with the following men in charge of the various school districts: D. F. Sexton, Fox School, district 148; Roy and Tom Davis, Jefferson school, district 149; A. D. Reardon, Green school, district 150 and district 156; C. A. Perkins, Fairview school, district 157; Dr. Wohlford, town of Barnard, district 167; Till Breit and Mr. Neely, Skidmore school, district 168; W. D. Walker, Dougan school, district 174; E. A. McBride, Whiteford school, district 175; George Swinford and Maurice Egan, Swinford school; E. E. Carver, town of Guilford and surrounding community. The duties of the men will be to organize the work in the various districts by having the owners of cattle meet at one place where shutes will be prepared, and giving any other assistance that is necessary.

Testing will be held tomorrow on the Neely farm near Skidmore by Dr. Eagle.

In the old days the motto
Used to be, "God Bless
Our Home," but now it reads
"God bless our auto."

ABOUT 100 H. S. STUDENTS IN COUNTY VISIT ST. JOE.

Delegation From Skidmore, Graham, Maryville High Schools and S. T.C. Inspect Stockyards

Between 75 and 100 students from the State Teachers College and from the local high school and the high schools of Graham and Skidmore, under the supervision of W. W. Stanfield, head of the department of agriculture at the College, visited the stock yards at St. Joseph yesterday. The delegations from Maryville and Skidmore made the trip to St. Joseph by train while the Graham students went by truck.

Yesterday morning the time was spent in the cattle, hog and sheep yards where the students learned how the animals are handled and traded.

At noon a lunch was served at the Transit House, after which the students listened to an illustrated lecture on bovine tuberculosis by Dr. J. I. Gibson of the South St. Joseph live stock exchange.

Following this another lecture on the benefits of the federal meat inspection system was given by Dr. D. R. Gillies, inspector of the local bureau of animal husbandry.

Later in the afternoon a trip through the Swift and Co. plant was taken and a visit was made to the Larabee Flour Mills and the federal weather bureau stations.

K. OF P. HEAD FROM ST. JOE TO BE HERE TOMORROW.

George A. McGee, of St. Joseph, field deputy grand chancellor of the Knights of Pythias will be in Maryville tomorrow evening to lecture to the local lodge. Degree will probably be put on after the lecture plans are being talked of to hold a luncheon.

Flashlight and batteries—Holt Sup. Co.

MISSOURI ELECTION CONCEDED TO JAMES A. REED

Political Expert at Washington Admits He Will Win in Today's Election.

Washington, D. C., Nov. 7.—Victory for the democratic candidates for re-election to the United States senate in Nebraska, Arizona, Nevada, Missouri and Utah is practically conceded today by the republican prophets here. George Rothwell Brown, political expert of the Washington Post and recognized as the publicity mouthpiece of administration leaders admitted the re-election of democratic senators in these states.

This means the return of Senator Hitchcock of Nebraska, Senator Jim Reed of Missouri, Senator Henry Ashhurt of Arizona, Senator Wm. H. King of Utah and Senator Key Pittman of Nevada.

All five of these senators were leaders in the attack on the tariff bill, the reduction of excess profits taxes, the proposal for a sales tax and all five have proclaimed themselves against the $70,000,000 ship subsidy which President Harding hopes to get through the next session of congress.

GRAFTERS WITHOUT C. OF C. O. K. HAVE WORKED HERE

Warning Against Road Map Grafters Received Today From Kansas City Chamber of Commerce.

Another instance of grafters without Chamber of Commerce credentials coming to Maryville and working has been brought to light this morning when a letter was received from G. W. Catts, agricultural commissioner of the Kansas City Chamber. Many similar solicitors have been in Maryville this summer and many dollars would have been saved local people had they insisted upon seeing the Chamber of Commerce O. K. before buying or giving to these solicitors.

The letter follows:

During the past two or three months several complaints have come to the Kansas City Chamber of Commerce concerning agents who are pretending to represent the Tourist and Travelers' Association, Chamber of Commerce, Kansas City. These persons have sold advertising space in road maps, collected the money in advance and have never been seen later.

Please warn your members against any such solicitors as there is no Tourist and Travelers' Association connected with this Chamber of Commerce. Any information concerning this kind of work in your town will be appreciated. Should such a solicitor appear in your city in the future wire the Chamber at once.

If this fraud has been worked on any of your people we would be glad to have their names and addresses.

Things We Would Like to See.
